First Division

## PROJECTS

### FriendsBook : Social Media Site [View Code](#) | [View Live](#)

Fullstack | **MERN**

A Fullstack social media application with CRUD functionality for posts & users, viewing friends' posts on your timeline, following/unfollowing users, liking/disliking posts, getting news and follow recommendations.

### SandBox - NFT Website [View Code](#) | [View Live](#)

Frontend | **React, Tailwind**

SandBox is a Modern UX / UI Site that allows you to explore, create, sell, and purchase NFTs. It consists a tuned blend of multiple complex gradients and graphics.

### Avacodo: Ecommerce Website [View Code](#) | [View Live](#)

Frontend | **Html, CSS, JS**

It is a Multipage Ecommerce site responsive across all platforms with an attractive modern theme, and complex layered footer. The code is arranged in scalable organized file architecture and is written using **BEM** naming convention.
